

Childbirth and Pelvic Floor Trauma

British Society of Urogynaecology
Regional Meeting

Friday 30th September 2011

Postgraduate Centre,
Queen Elizabeth Hospital, Birmingham

Why Attend?

- Learn about the latest developments
- Hear presentations on how to minimise and treat pelvic floor morbidity related to childbirth
- Claim up to 6 CPD credits in category E/I for full attendance at this meeting

Who Should Attend?

- Trainees and Consultants in Obstetrics and Gynaecology, Colorectal surgery
- Midwives
- Nurses and Physiotherapists with an interest in this field

This meeting organised on behalf of the British Society of Urogynaecology (BSUG), aims to update delegates on current issues and clinical practice regarding childbirth related pelvic floor trauma. The varied programme includes renowned speakers and will stimulate thought and discussion. After each session there will be a round table discussion led by the chair and to finish the day video presentation will be discussed.
